INTEGRATIVE PHYSICIAN CONSULTATION

A medical consultation focused on enhancing quality of life, optimizing hormonal balance, identifying and correcting deficiencies, and supporting energy and sleep.

PRICE €110

FOLLOW-UP SESSIONS: €100

INTEGRATIVE NUTRITIONIST CONSULTATION

The doctor and nutritionist collaborate to develop a personalized nutrition and recovery plan tailored to your lab results, symptoms, and lifestyle.

PRICE €80

MEDICAL ACUPUNCTURE

Medical acupuncture focused on pain relief, muscle relaxation, restoring bodily balance, and activating the body's natural healing processes.

PRICE €95

FOLLOW-UP SESSIONS: €90

KINESIOLOGY

Functional kinesiology focused on assessing and correcting movement dysfunctions, optimizing muscle and joint function, and preventing imbalances in the body.

PRICE €100

FOLLOW-UP SESSIONS: €80

LIFEBREATH MANUAL THERAPY

A patented proprietary method developed by a surgeon, PhD, and osteopathic physician. It involves deep work with the fascia and the body's structural balance, aimed at reducing pain, relieving tension, and restoring proper biomechanics.

PRICE €150

FOLLOW-UP SESSIONS: €100

NATUROPATHY

A holistic approach to natural body support, offering personalized assessments, lifestyle and nutrition guidance, along with auriculotherapy and bioresonance techniques to gently address functional imbalances and promote overall balance.

PRICE €65

PEDIATRIC REHABILITATION

Providing support for children with posture problems, flat feet, and movement or muscle imbalances, using a personalized approach based on their age and developmental stage.

PRICE €90

TRE (TENSION RELEASE EXERCISES)

TRE is a clinical technique that releases deep muscle tension by activating the body's natural neuromuscular tremors, helping to reduce chronic stress, rebalance the nervous system, and ease psycho-emotional strain.

PRICE €65

THERAPEUTIC MASSAGE

Therapeutic soft tissue treatments designed to alleviate pain, release muscle tension, and restore mobility. Our specialists undergo ongoing training at the LifeBreath Osteopathic School to deliver deeper, more precise, and highly effective massage therapy.

PRICE €80

FUNCTIONAL BREATHING – BUTEYKO METHOD

A clinical technique designed to restore proper breathing patterns and normalize lung function, enhancing tissue oxygenation, reducing anxiety and hyperventilation, and supporting overall respiratory well-being.

PRICE €60

5 SESSIONS: €249

Seena EQUIPMENT

At the Seena Center, equipment is used as an important part of the integrative recovery process, supporting the body through diagnostic and therapeutic approaches. We use modern technologies that help assess the condition of the body and better understand its needs, as well as equipment aimed at treatment and recovery.

From ozone therapy, which can be applied in various ways to support the body's natural regeneration and balance, to EMS Body Sculpt technology, which helps strengthen the abdominal muscles and address chronic pain - each method is selected to harmoniously complement the overall therapy plan.

All equipment is used within a holistic approach aimed at recovery, strengthening the body, and overall well-being.

OZONE THERAPY

PRE-OZONE THERAPY MEDICAL CONSULTATION

A thorough consultation reviewing your lab results, medical examinations, and history, including any chronic conditions, to design a personalized ozone therapy plan with the ideal course length and exact dosage.

PRICE €110

FOLLOW-UP CONSULTATION - €100

INTRAVENOUS (AUTOHEMOTHERAPY/MAJOR)

A procedure in which ozone is introduced into the blood to improve tissue oxygenation, strengthen immunity, boost energy, and support overall health.

PRICE €100

PACK OF 5 - €450
PACK OF 10 - €900

INTRAMUSCULAR (MINOR)

A treatment that delivers ozone into the muscles to enhance circulation, speed up recovery, decrease inflammation, and maintain overall body vitality.

PRICE €80

PACK OF 5 - €360
PACK OF 10 - €700

INTRA-ARTICULAR

A procedure in which ozone is administered into the joint to reduce inflammation, relieve pain, improve mobility, and support musculoskeletal health.

PRICE €110

AURICULAR

A procedure in which ozone is administered through the ear to improve microcirculation, strengthen immunity, and support the health of the ears and upper respiratory tract.

PRICE €40

LOCALIZED LIPOLYSIS FOR EXTERNAL FAT DEPOSITS

Localized lipolysis for external fat deposits (anti-cellulite effect) is a technique aimed at targeting fat deposits to reduce them and diminish cellulite.
The procedure helps improve body contours, decrease fat accumulation, and enhance skin firmness, providing an aesthetic effect and improved appearance.

PRICE €80

OZONE THERAPY FOR CHRONIC INTERSTITIAL CYSTITIS

Ozone therapy for interstitial cystitis is a technique involving the local administration of an oxygen–ozone mixture into the bladder or surrounding tissues to reduce inflammation and pain.
The application of ozone improves microcirculation, stimulates tissue regeneration, decreases spasms and discomfort, and enhances the quality of life in patients with chronic bladder inflammation.

PRICE €100

RECTAL (INSUFFLATION)

A treatment that delivers ozone rectally to enhance blood oxygenation, boost the immune system, promote detoxification, and support overall well-being.

PRICE €50

TOPICAL (EXTERNAL)

A treatment that applies ozone locally to speed up skin healing, decrease inflammation, regenerate tissues, and enhance overall skin health.

PRICE €100

OZONE ACUPUNCTURE

Ozone acupuncture at trigger points is a therapeutic technique that combines the principles of acupuncture with the local administration of an oxygen–ozone mixture into specific muscular points (trigger points).
The application of ozone in these points contributes to the reduction of pain and inflammation, promoting muscle relaxation, improving local microcirculation, and stimulating tissue regeneration processes.

PRICE €80

INTRAVAGINAL OZONE THERAPY

Intravaginal ozone therapy is a medical procedure in which an oxygen–ozone mixture is used for local treatment of the vaginal mucosa.
The procedure helps restore the normal vaginal microflora and is used in the management of bacterial vaginosis, candidiasis, and chronic inflammatory conditions of the pelvic organs.

PRICE €70

EMS BODY SCULPT / EMS CHAIR

High-intensity electromagnetic muscle stimulation for deep muscle strengthening. It is used to improve muscle tone, support postpartum recovery, strengthen the pelvic floor muscles, and enhance overall muscle function without placing stress on the joints.

INCLUDED WITH KINESIOLOGY&MASSAGE

TENS

A method of transcutaneous electrical nerve stimulation used to reduce pain and relax muscles. It is applied for both acute and chronic pain, muscle spasms, and tension. When combined with kinesiology, it helps relieve discomfort more quickly and improve movement function.

INCLUDED WITH KINESIOLOGY

THERMAL CHAMBER

Thermal imaging diagnostics that allow visualization of areas with increased or decreased heat radiation in the body. It helps identify inflammatory processes, circulatory disorders, and functional asymmetries. It is used as an additional tool for objective assessment in a specialist's practice.

PRICE €80

SHOCKWAVE THERAPY

A hardware-based treatment method that uses acoustic waves to stimulate blood circulation and the body's natural tissue regeneration processes. It is used for chronic muscle and tendon pain, overuse injuries, fasciitis, and restricted mobility. It is often combined with kinesiology to reinforce the results and restore proper biomechanics.

INCLUDED WITH KINESIOLOGY

PRESSOTHERAPY

A device-assisted lymphatic drainage treatment using controlled pressure. It helps reduce swelling, improve venous and lymphatic outflow, relieve the feeling of heaviness in the legs, and support the body's recovery processes.

INCLUDED WITH KINESIOLOGY&MASSAGE

Seena Centre & SAZONOVA SCHOOL PRODUCTS

We are proud to introduce our in-house product line, created in a unique collaboration with Sazonova School. Alyona Sazonova - an experienced midwife with a profound understanding of childhood development - knows exactly what is essential for a child's safe and harmonious growth.

At Seena, we provide products that support a child's natural and healthy development. We believe this partnership seamlessly blends expert knowledge, practical experience, and a deep commitment to infant care - ensuring the very best for the health, comfort, and well-being of your children.

NOVA SENSE POUF

The Nova Sense Baby Pouf creates a cozy, womb-like environment for children from birth up to 3–5 years. Its soft, enveloping shape gently supports the body, providing a sense of safety and comfort similar to being in the mother's womb. This position helps the child relax, relieves tension, promotes calm breathing, and supports body awareness, coordination, and early sensory integration. Lightweight, portable, and easy to care for, the pouf offers a safe and nurturing space for rest, play, and early development.

PRICE €150

PHYSIOLOGICAL SWADDLES

This swaddle provides a soft, cozy wrap that holds the upper body while allowing the hips and legs to move freely. It supports proper spinal alignment, encourages self-soothing, and adapts as the child grows, offering safe, comfortable, and calming swaddling.

PRICE €20/€25

Seena Products
AUGMENT LIFE

At Seena, we partner with one of Germany's purest supplement brands. Every product undergoes rigorous testing by independent laboratories and is accompanied by a Certificate of Analysis (COA) - an official document that verifies the product's purity, precise active ingredient content, and safety.

All ingredients are natural, free from unnecessary fillers and additives, and formulated in highly absorbable and bioavailable forms to ensure maximum nutrient uptake. This approach guarantees the effectiveness, transparency, and trust behind every product we recommend to our clients.

AUGMENT LIFE - CREATINE MONOHYDRATE POWDER 250G/500G

Pure creatine without additives that enhances physical performance, speeds up muscle recovery after workouts, and supports energy and concentration.

PRICE €18/€30

AUGMENT LIFE - COLLAGEN PEPTIDES TYPE II BOVINE POWDER

Type II bovine collagen with hyaluronic acid — pure hydrolyzed collagen that supports skin elasticity and joint health, is easily absorbed, and contains no unnecessary additives.

PRICE €36

AUGMENT LIFE - QUERCERTIN DIHYDRATE

A natural antioxidant that supports the immune system and reduces inflammation. May help with allergic reactions.

PRICE €13

AUGMENT LIFE - CURCUMIN

Curcumin, a scientifically proven anti-inflammatory and antioxidant compound that supports joint health and protects cells from oxidative stress.

PRICE €15

AUGMENT LIFE - BERBERINE

A natural compound scientifically proven to help support normal blood sugar levels and metabolism.

PRICE €25

AUGMENT LIFE - L-THEANINE

A natural amino acid from green tea, scientifically proven to help reduce stress and promote relaxation without causing drowsiness, while supporting concentration and cognitive function.

PRICE €27

AUGMENT LIFE - MAGNESIUM GLYCINATE

An easily absorbable form of magnesium, scientifically proven to support the normal function of muscles, the nervous system, and the cardiovascular system.

PRICE €17

AUGMENT LIFE - D-MANNOSE

A natural sugar scientifically proven to support urinary tract health and reduce the risk of bacterial infections.

PRICE €24

AUGMENT LIFE - VITAMIN D3 + K2

A highly effective combination in a bioavailable form. Vitamin D3 supports the immune system and bone health, while K2 in the MK-7 form is a scientifically proven form that is best absorbed and helps direct calcium to the bones, supporting their health.

PRICE €26

AUGMENT LIFE - ASHWAGANDHA

A natural adaptogenic herb, scientifically proven for its ability to reduce stress, support emotional balance, and enhance the body's energy and stamina.

PRICE €12

AUGMENT LIFE - SERENITY+

A natural herbal formula designed to support emotional balance, reduce stress, and promote relaxation without causing drowsiness.

PRICE €24

Seena Products

OXXY O3

Seena partners with OXXYO3 - a brand that creates clean, meticulously crafted formulas merging natural ingredients, ozone-infused olive oil, and potent antioxidants. OXXYO3 products are renowned for their gentle support of the gastric mucosa, digestive comfort, and the immune system, helping to maintain the body's lightness, balance, and harmony. By combining traditional wisdom with modern research, every OXXYO3 formula provides effective and safe support while remaining entirely natural and thoughtfully designed.

OXXYO3 - GASTRO

An ozonated olive oil syrup blended with natural herbal extracts. This formula is designed to support gastric mucosal health, promote comfortable digestion, and help protect the stomach lining while providing gentle antioxidant support.

PRICE €27

OXXYO3 - AMPULES

Ozonated olive oil ampoules enriched with zinc. This formula provides potent antioxidant support, helping to maintain overall well-being and strengthening the body's natural defense mechanisms.

PRICE €45

OXXYO3 - SPRAY

An oral spray formulated with ozonated olive oil, propolis, and a potent blend of herbal extracts, including echinacea, licorice, marshmallow root, and thyme.
Designed to support comfort and ease in the mouth and throat, while promoting overall vitality and a sense of well-being.

PRICE €19

OXXYO3 - CAPSULES

Antioxidant support capsules formulated with olive extract and ozonated molecules. Enriched with zinc to support the immune system, these capsules help protect cells from oxidative stress while promoting overall well-being.

PRICE €44

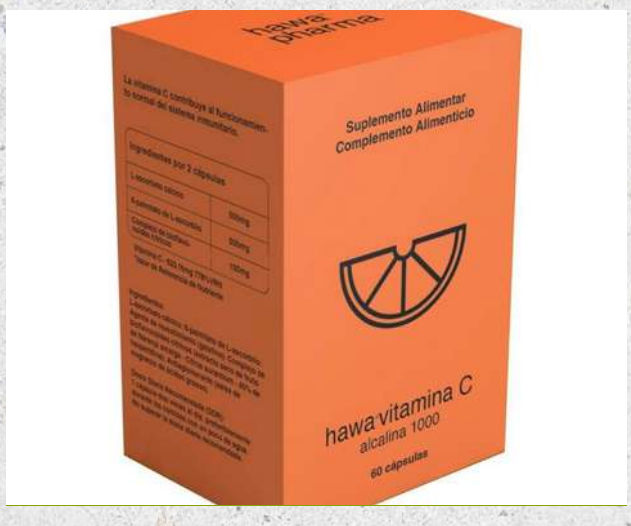
Seena Products
HAWA SUPPLEMENTS

Hawa is a brand dedicated to creating natural, high-quality wellness products that support digestion, immunity, energy, and overall well-being. Their formulas blend meticulously selected herbs, active nutrients, and traditional wisdom to deliver clean, effective, and thoughtfully crafted solutions. Seena partners with Hawa to ensure their supplements become a seamless part of your holistic health routine, maintaining your body's internal harmony.

HAWA PHARMA - DIGEST

An herbal and enzyme-based dietary supplement designed to support digestion and the comfortable absorption of nutrients. Formulated with fennel, cardamom, gentian (bitter), and digestive enzymes, it helps maintain a feeling of lightness and well-being after every meal.

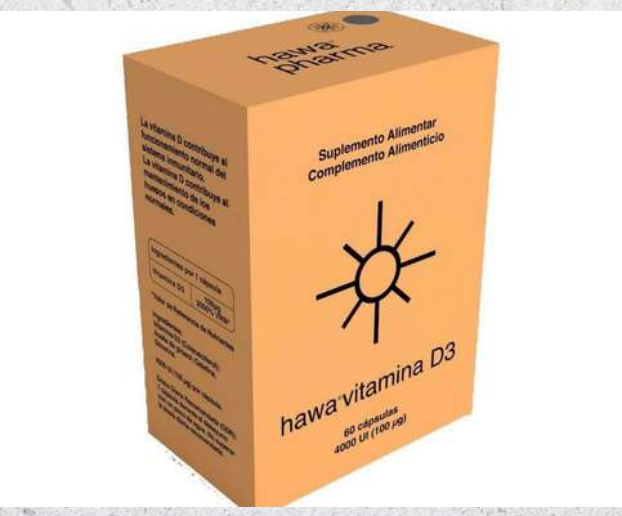
PRICE €19



HAWA PHARMA - VITAMIN C

A dietary supplement featuring Vitamin C in alkaline form. It supports the immune system, provides powerful antioxidant benefits, aids in iron absorption, and promotes healthy skin-strengthening your overall well-being.

PRICE €20



HAWA PHARMA - VITAMIN D3

A dietary supplement featuring the active form of Vitamin D3, designed to support bone and muscle health while strengthening the immune system. It aids in the absorption of calcium and phosphorus, promoting overall well-being and vitality.

PRICE €15

HAWA PHARMA - STRESS

A powerful formula combining Serenzo (Citrus sinensis extract), ashwagandha, tulsi, GABA, and coriander — designed to support stress resilience, energy levels, and overall vitality.

PRICE €26

HAWA PHARMA - FLU

An herbal dietary supplement designed to support the immune system and the body's natural defenses.
Formulated with extracts of elderberry, acerola, propolis, and echinacea, it provides vital immune support during the cold and flu season.

PRICE €16

HAWA PHARMA - DIUR

A gentle herbal formula featuring horsetail, hibiscus, and pilosella, designed to support the body's natural fluid balance and help reduce water retention.

PRICE €19

Seena Products
PURE TALLOW

At Seena, we have curated a selection of products that support the body's natural strength and balance. The elements of our daily lives - light, nutrition, and personal care - directly impact our overall well-being.

We place a particular emphasis on skincare. As the body's largest organ, the skin absorbs much of what we apply to it, potentially influencing internal processes including the endocrine system - a factor that is vital for women's health.

This is why we partner with the Portuguese brand Pure Tallow. They create natural skincare products based on beef tallow - a traditional ingredient with a lipid profile remarkably similar to human skin. It provides deep nourishment while supporting the skin's natural equilibrium.

TALLOW LIP BALM

A natural lip balm made from just two ingredients: tallow (rendered, purified beef fat rich in vitamins A, D, E, and K) and organic beeswax. It deeply nourishes, restores, and protects the lips, supporting their natural barrier - without synthetic additives or fragrances. A pure, minimalist care product for soft and healthy lips.

PRICE €14

TALLOW DEO STICK

This is a natural deodorant stick made from rendered beef fat (tallow). It neutralizes odor using natural ingredients (baking soda and arrowroot) while nourishing and protecting the skin with tallow and jojoba oil. It does not block sweating, allowing the skin to breathe, and is free from aluminum, synthetic fragrances, and hormone-disrupting ingredients.

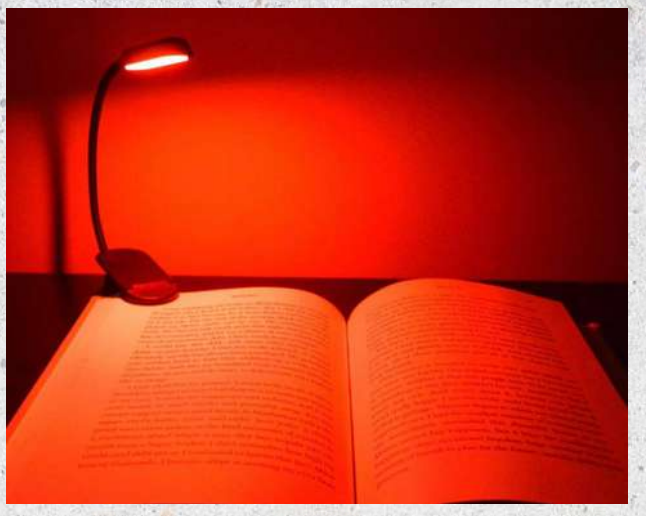
PRICE €18

Seena Products
RED LIGHTS

At Seena, we have curated products that support the body's natural strength and balance. Small daily habits and the surrounding environment play a vital role in how the body rests, recovers, and feels.

After sunset, light becomes particularly important in preparing the body for sleep. Research shows that blue and bright white light in the evening can suppress the production of melatonin - the sleep hormone. Soft red light, however, is significantly gentler on the system and does not disrupt natural circadian rhythms.

Therefore, using red light in the evening helps the body naturally transition into a state of rest and recovery, creating a more peaceful and harmonious atmosphere at home.



MINI RED CLIP-ON LAMP

A small rechargeable clip-on lamp with soft red light for nighttime use - perfect for reading or feeding without disturbing sleep. The red light supports natural melatonin production and healthy circadian rhythms, gently soothing the eyes. It charges via cable, has a single-button control, adjustable brightness, and easily clips to a book, bed, or crib.

PRICE €17

RED LED NIGHT LIGHT WITH MOTION SENSOR

Soft light without the blue spectrum does not suppress melatonin, supports the circadian rhythm, and helps make it easier to fall lack asleep at night. Equipped with a motion sensor, it turns on automatically when movement is detected - perfect for nighttime use in bathrooms and hallways.

PRICE €19.50

Seena Products

ALTAI CODE TEA

At Seena, we partner with brands that share our values - clean, natural, and restorative products.

One such partner is Altai Code, a brand of herbal teas made from carefully selected wild-harvested herbs. Each ingredient is gathered at the precise moment of its natural cycle to preserve its aroma and true character.

Each blend offers a mellow taste, fresh herbal notes, and a deep sense of calm. All Altai Code teas are naturally caffeine-free and suitable for any time of day, helping you maintain balance and well-being.

For Seena, wellness is a philosophy. A cup of tea becomes something more than just a drink - it is a quiet moment to reconnect with yourself.

ALTAI CODE TEA – FOREST HARMONY

Ingredients: Kuril tea (Potentilla), lemon balm, mint.
Description: These herbs help create a sense of calm and inner balance while gently supporting the immune system.

PRICE €14

ALTAI CODE TEA – SUMMER SIGH

Ingredients: Kuril tea, thyme, strawberry leaves, dried strawberries.
Description: This blend provides a gentle sense of relaxation and rejuvenation, with light fruity notes of strawberry.

PRICE €15

ALTAI CODE TEA – WHISPER OF THE MEADOW

Ingredients: chamomile, ziziphora, lemongrass, lemon peel.
Description: This herbal blend is valued for its gentle calming effects and refreshing aroma.

PRICE €12

ALTAI CODE TEA – GLOW OF THE SUNSET

Ingredients: linden flowers, rose hips, orange peel, raspberry leaves, nettle, blackcurrant leaves.
Description: This vitamin-rich blend is traditionally used to support overall health and gently strengthen the immune system.

PRICE €14

ALTAI CODE TEA – MISTY MORNING

Ingredients: fermented Ivan tea, hawthorn.
Description: Hawthorn helps to calm and gently relax the body while supporting cardiovascular health.

PRICE €12

ALTAI CODE TEA – BERRY DEW

Ingredients: fermented Ivan tea, dried wild strawberries.
Description: Wild strawberries give the tea a gentle fruity flavor and serve as a natural source of antioxidants.

PRICE €15

ALTAI CODE TEA – SECRET OF THE WIND

Ingredients: Kuril tea, blackcurrant leaves, lemon balm, rosemary, chamomile.
Description: This blend combines herbs that help support vitality, reduce fatigue, and promote comfortable digestion.

PRICE €15

ALTAI CODE TEA – SCARLET DAWN

Ingredients: fermented Ivan tea with cranberries.
Description: Cranberries add a refreshing tartness and serve as a natural source of antioxidants.

PRICE €14
